# About Vebryx

Vebryx is a UK-based MVP and software development company that partners with startups to bring ideas to life. We work closely with founders to turn their vision into practical, market-ready solutions.

Our focus is on building strategic MVPs that help validate product ideas with real users, ensuring genuine demand before scaling. This approach helps reduce risk, save time, and build with confidence.

# Selected MVP Case Studies

# Infinite Running League - Relay Racing Platform

## The Challenge

Runners and managers lacked a centralized platform to manage races, requiring early validation to confirm real demand

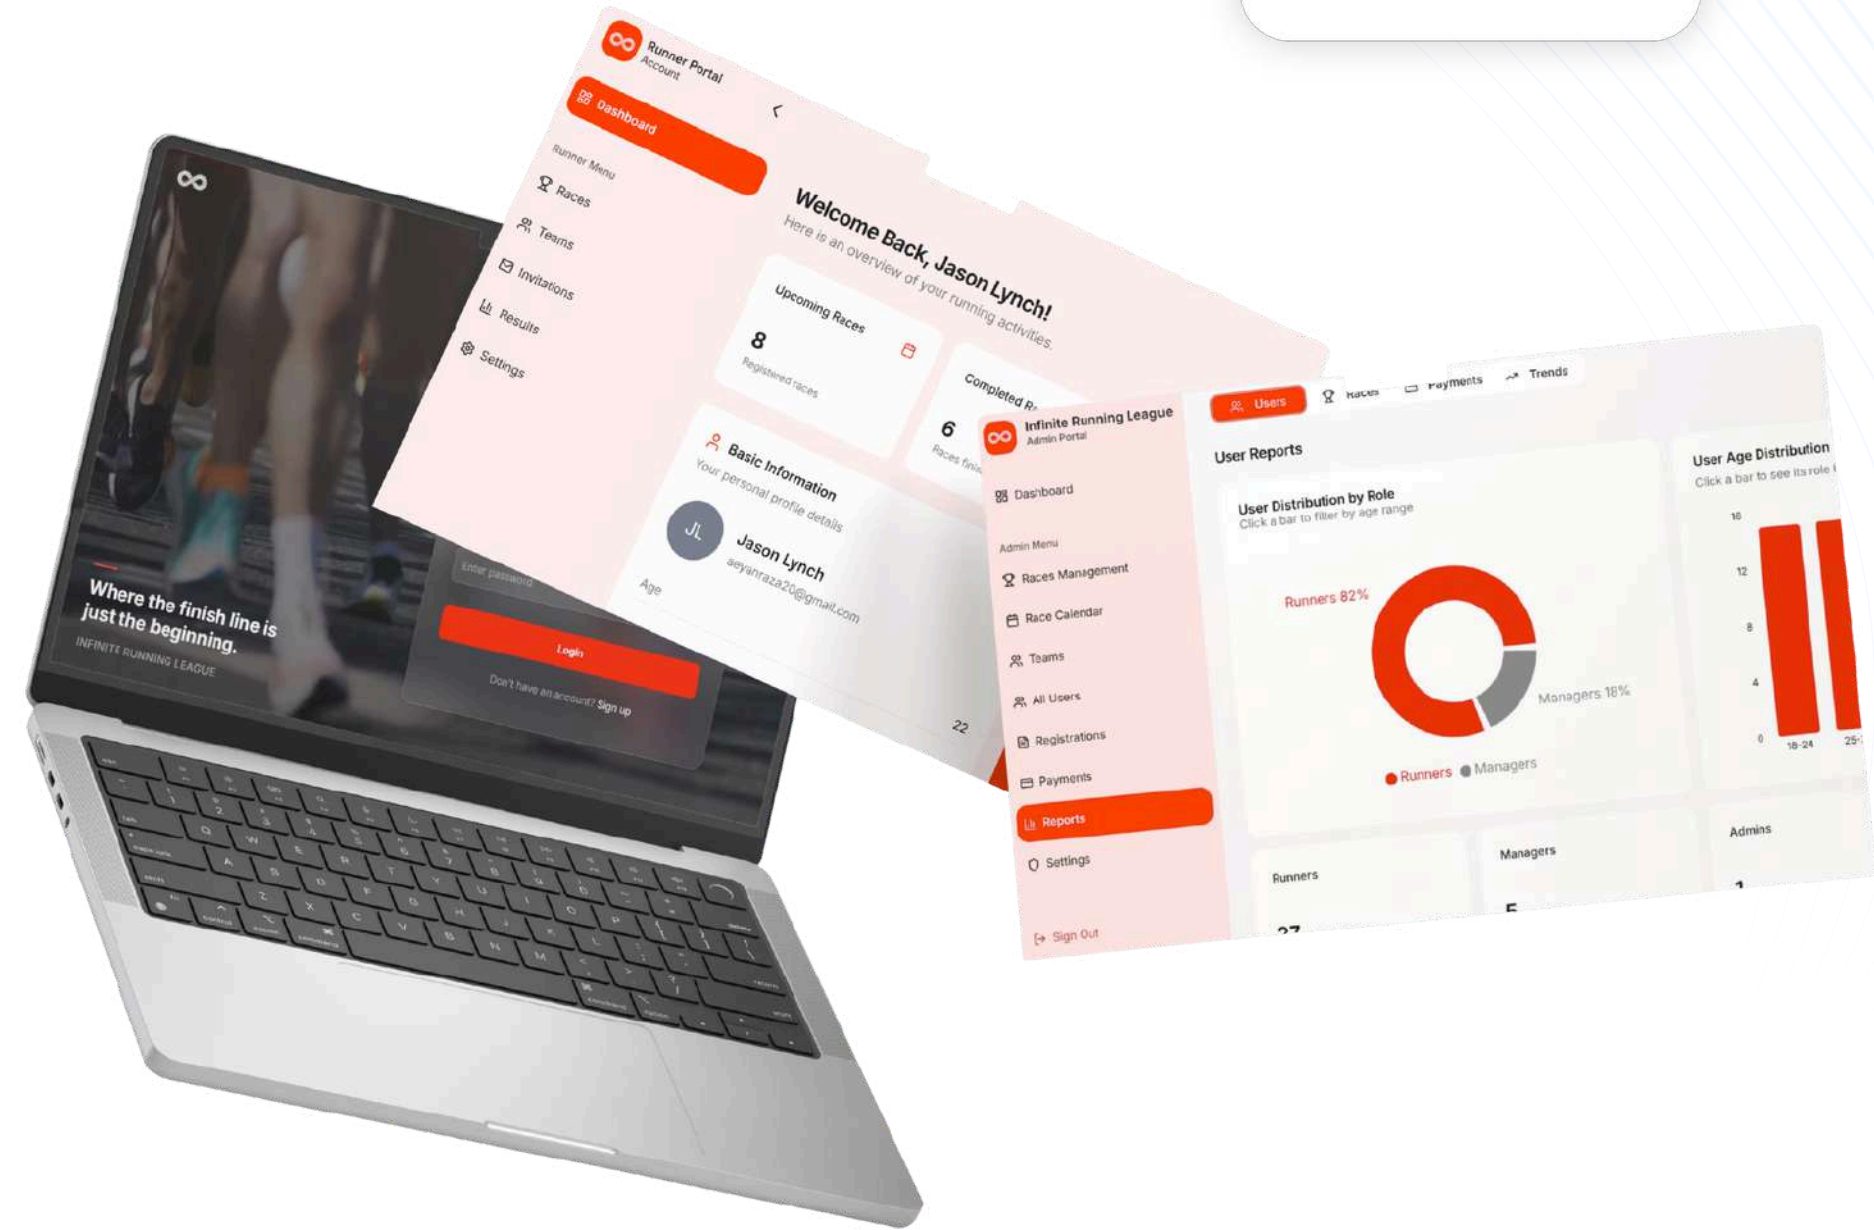

## Our Solution

**Validation Website:** WordPress site with analytics for early user data.

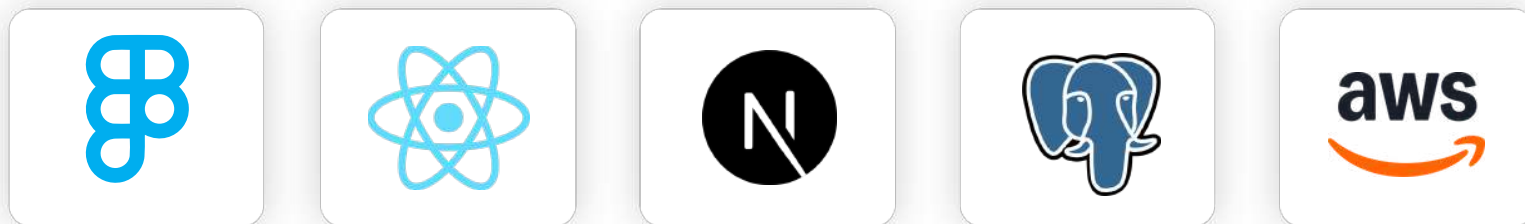

**Prototype & Waitlist:** High-fidelity prototype to validate demand.

**Marketing:** Organic and paid campaigns with tracking.

**Platform:** Scalable web app built from validated feedback.

## Technologies Used

**Impact:**

**1,000+** Waitlist Sign-ups

**6 wks** To Validate Demand

**45%** Feedback Submission Rate

**0** Lines of Code

# Last Minute Cards - Digital Gift Card Platform

## The Challenge

The client wanted a unified digital gifting platform to replace multiple tools and improve user experience.

## Our Solution

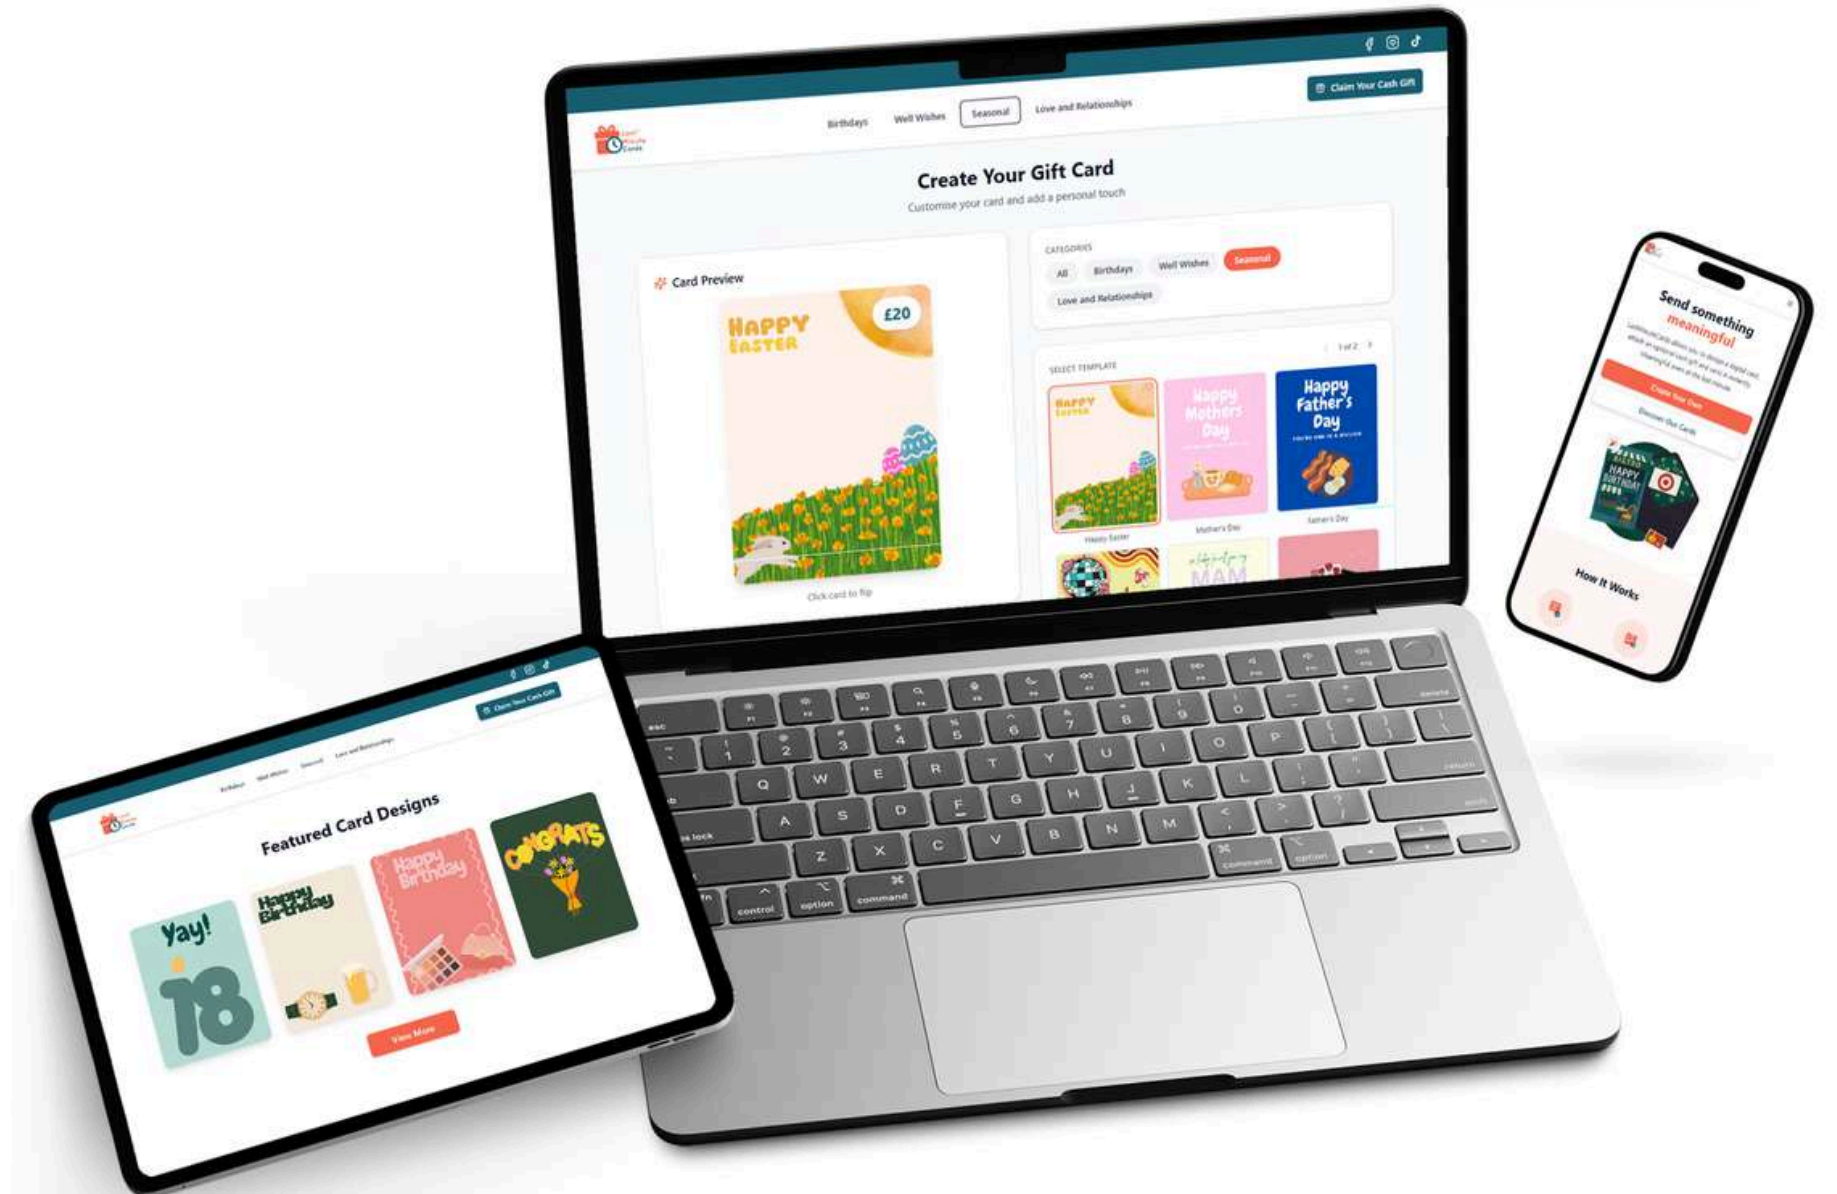

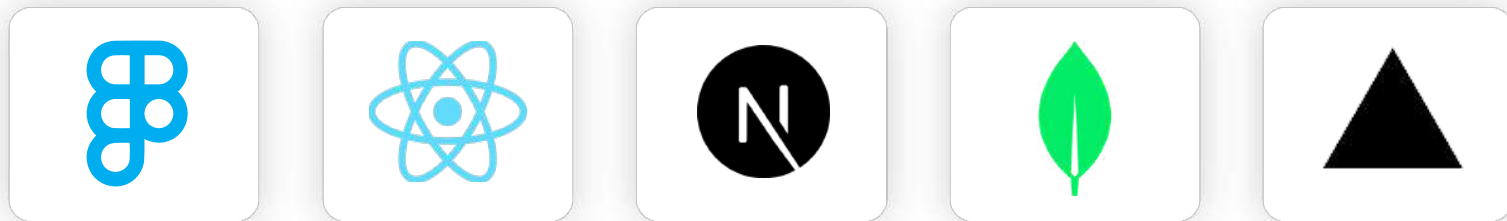

**UI/UX:** High-fidelity, responsive interfaces.

**Web App:** Scalable, cloud-native platform.

**Secure Transactions:** PCI-compliant, end-to-end encrypted.

**Vendor Tools:** Role-based management for multiple vendors.

## Technologies Used

**Impact:**

**100%** Core Features Completed

**4 wks** To Launch MVP

**500+** Cards Creations

**95%** Client Satisfaction

# Palette OS - SaaS Platform for Color Palette Management

## The Challenge

Designers lacked a unified, collaborative tool for accessible, brand-consistent palettes.

## Our Solution

**Palette Creation:** Generate and manage color palettes efficiently.

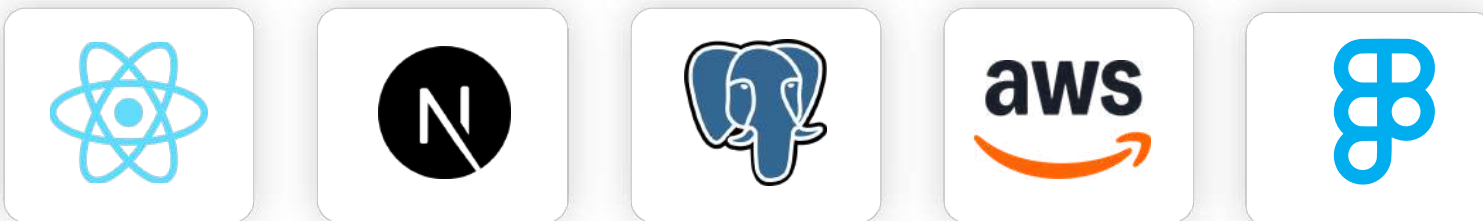

**Validation:** Accessibility checker and color-blindness simulation.

**Community:** Platform for sharing and discovering palettes.

**Brand Systems:** Structured management of corporate color guidelines.

## Technologies Used

**Impact:**

**65%** Activation Rate

**80%** Palette generation usage

**500+** Published Palettes

**32%** Annual Churn Rate

# Dentora - Scalable Dental Management System

## The Challenge

The client needed a scalable, workflow-aligned system to replace spreadsheets and generic SaaS tools.

## Our Solution

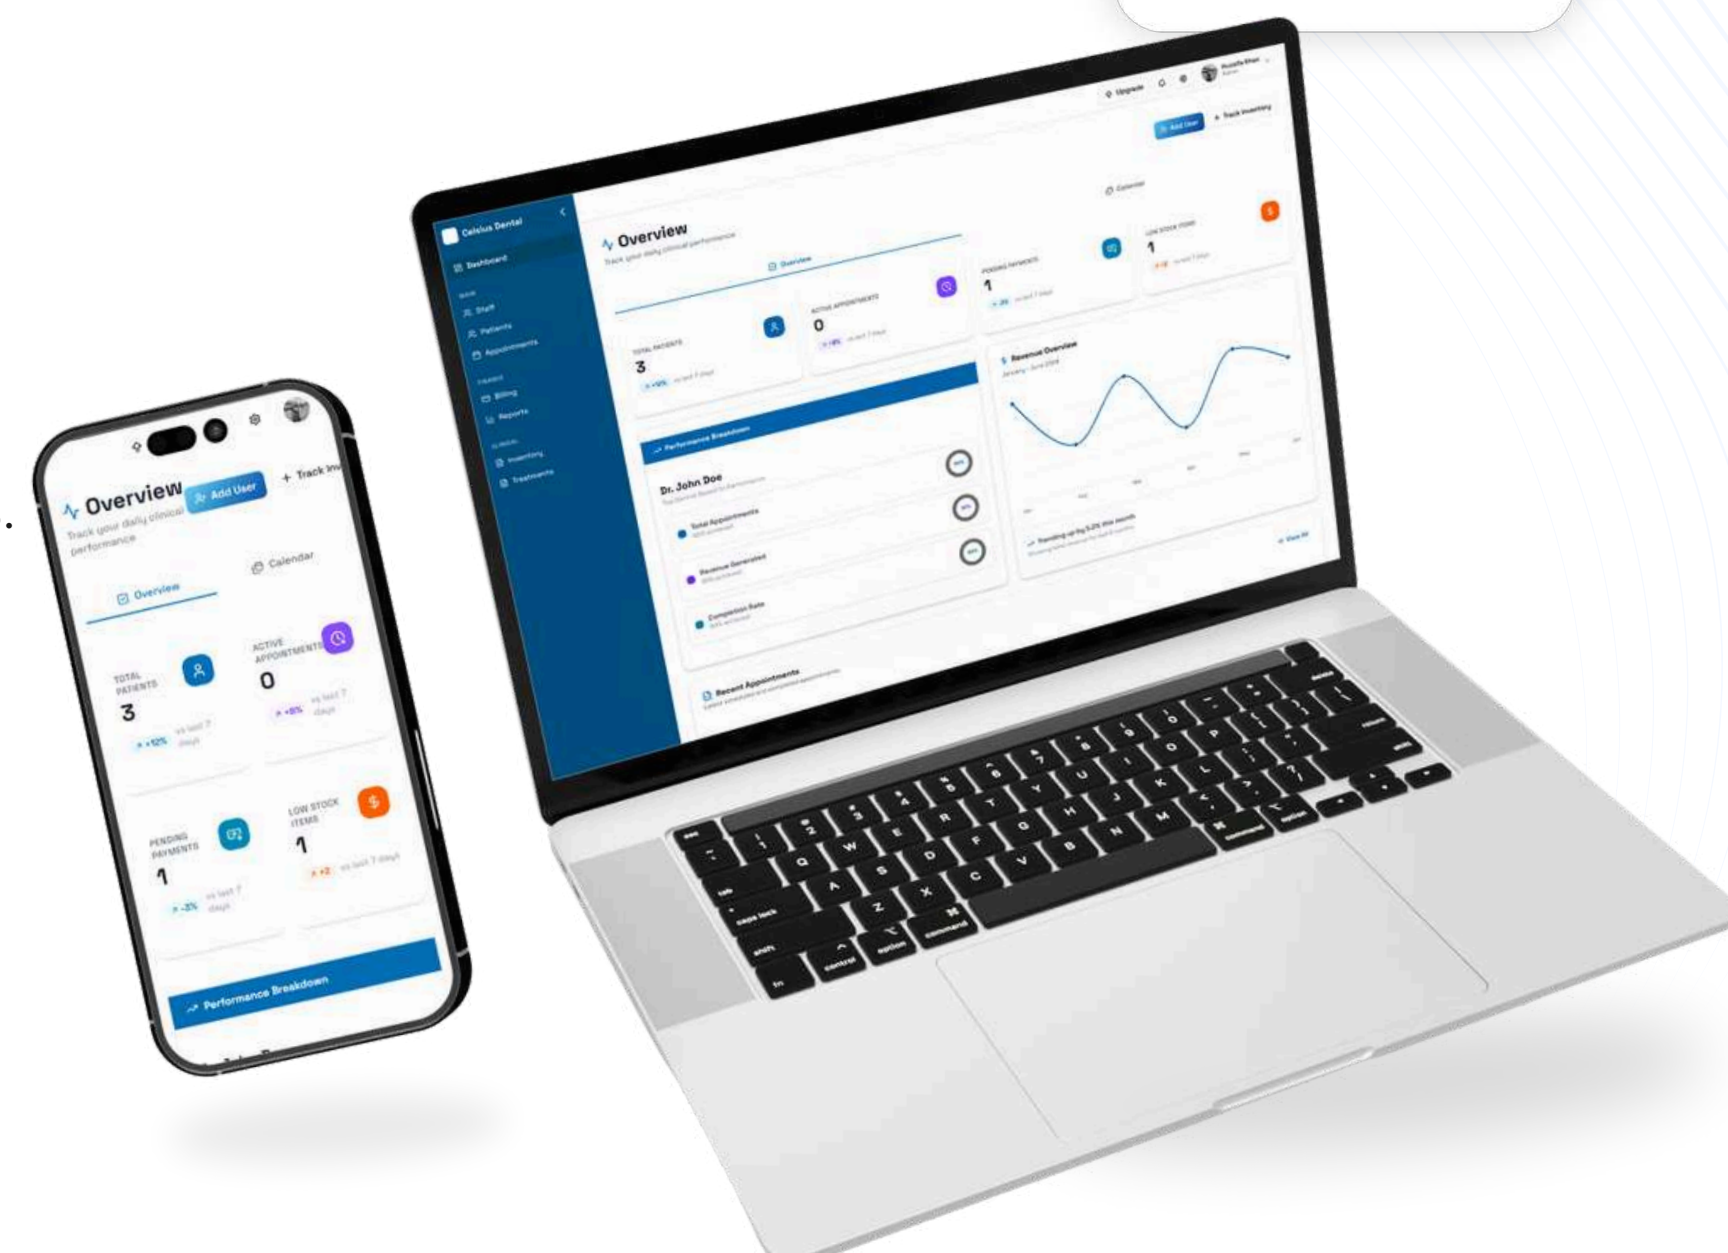

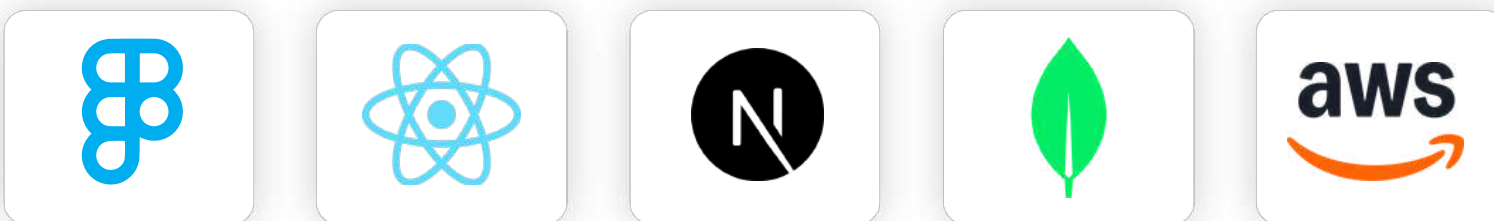

**Web App:** Centralized management of scheduling, EHR, billing, and analytics.

**Smart Inventory:** Automated supply tracking with alerts and reporting.

**Integrated PACS & Dental Chart:** Digital imaging and treatment data.

**AI Integration:** Automated scheduling, inventory, and operational workflows.

## Technologies Used

**Impact:**

**67%** Time Saved

**85%** Cost Reduction

**100%** Data Centralization

**65%** Operational Efficiency
